EG-930-RB Pro Series Ergo-Grip® industrial grade control grip incorporating our proprietary Proportional Pro-Switch.

The Cyber-Tech, Inc. Pro-Switch uses proven Hall Effect technology providing a smooth linear output of 0.5 to 4.5 VDC for precise control and is protected in an environmentally sealed enclosure.

The EG-930-Pro Series Ergo-Grip® can incorporate up to two of our Proportional Pro-Switches and one long-life (10,000,000 Cycle) soft-touch finger-operated pushbuttons placed in the right or left thumb-operated trigger switch location.

For custom application please call our customer service department. 1.800.621.8754 sales@cyber-tech.net
